

Push Rivet Installation

For Britax® Decathlon Child Restraint

Figure 1 shows items needed for push rivet fastener installation. Included in kit:

- push rivet fasteners (3, 1 extra)

Push Rivet Installation

1. Place restraint front-side down on a flat surface (fig 2).
2. Locate holes where push rivets will be inserted (fig. 3).
3. Insert push rivet into hole and push down with thumb until it is flush with shell (fig 4). A positive click confirms installation.
4. Repeat for the second push rivet (fig 5).
