Dear Britax Regent Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Britax Child Safety, Inc. ("Britax") has determined that certain Britax Regent® car seats, model number E9L3998 with fabric designation Classic, manufactured from December 18, 2006, through January 18, 2007, fail to comply with Federal Motor Vehicle Safety Standard 213, "Child Restraint Systems".

**The performance of the Regent car seat is not affected by this notice.** Regent seats affected by this notice were manufactured with the incorrect warning label applied to the seat cover. The correct warning label, as illustrated in the attached inspection sheet, provides warnings and precautions to prevent improper use of the child restraint. This notice applies only to the Britax Regent with the fabric designation Classic and model number E9L3998. **No other Britax models, fabric designations or manufacture dates are affected by this notice.**

According to our records, your child restraint system may be affected. Britax is providing with this notification a detailed inspection sheet to determine if your car seat is affected. If the Regent cover has the incorrect label, Britax will replace the cover free of charge with a Regent Classic cover with the correct label.
